

# School Development Plan

**The Axis Academy**

Cheshire East

# Introduction

---

The Axis Academy is a special school for children with EHCPs for Social Emotional and Mental Health. The school provides opportunities for those students out of education or those who are not coping within the mainstream setting. Our aim is to work consistently to provide excellence for every student. With a highly-trained, specialised team, we support each student's individual needs, particularly focusing on those students with mental-health issues, needing a safe, but aspirational, environment to recapture an often lost passion for learning and creativity.

The Axis Academy offers a life line to children with EHCPs who live with social emotional and mental health difficulties that prevent them from accessing both an education and social mobility. We do this through a true dedication to a whole school, holistic approach to emotional well-being and mental health.

The Axis Academy has been launched with the aim to re-connect students who have become detached from their education, and in some cases purpose in life. We continue to strive to re-engage students and to give them a vision of both their education and their place in the wider community.

We create a nurturing approach to education where children feel safe and supported and that their needs and obstacles in life are understood and addressed by empathetic, patient members of staff who show compassion and appreciate the needs and requirements of all students.

The Axis Academy provides a variety of surroundings to develop the whole child, such as sensory rooms, offices of trusted members of staff, outdoor spaces and breakout rooms. Our commitment is for children to feel safe and secure, with staff that motivate and drive them to go to school every day.

Not only do children have access to trained members of staff who know and understand their needs, The Axis Academy works collaboratively with a variety of multi agencies to ensure that childrens' needs are being met and anxieties are being reduced by providing onsite facilities, and a collaborative delivery model with visiting professionals.

The Axis Academy provides an education to children from KS2 - KS4 (expanding to KS5 in September 2023), and we offer an ambitious, varied and inspiring academic curriculum with vocational subjects in addition for character/personal development.

**Intent:** All leaders have a clear focus on the instructional core, are strategic in their thinking and planning and can articulate and embody their vision and direction to make instructional quality a priority, increasing students' holistic achievements. Staff are given autonomy in their roles and recognised for the impact they have.

**Impact:** Staff will feel valued, empowered and motivated, will be clear on the theory and practice underpinning the pedagogy and direction of the school and understand their accountability for and impact on outcomes. The students' learning journeys will be at the very core of all that is co-created and collaborated upon, so that all students maximise their potential, whatever that potential may be, within a culture of growth that leads to quality outcomes.
