

THE AXIS ACADEMY- STATEMENT OF PROVISION

INTRODUCTORY STATEMENT

The Axis Academy is a specialist school for students with special educational needs. Students have an Educational Health and Care Plan (EHCP) for social, emotional and mental health difficulties. The Academy will provide 68 places for students focusing on supporting those students with severe and specific mental health needs. With an ambitious and balanced curriculum diet, and a targeted and bespoke support model, we aim that all of our students are enabled and empowered to become successful and contributing members of the modern world.

ADMISSIONS TO THE SCHOOL

The Axis Academy is a specialist school which will provide 68 places for students in the age range 4 – 18. Students have a Social, Emotional and Mental Health diagnosis and an EHCP

For a child to be admitted, the school must be named, by a local authority, in the child's EHCP.

Parents wishing their children to benefit from our provision should ask their local authority to name our school in their child's EHCP.

A local authority can also refer a child to the school to be assessed for an EHCP. This can be following a change in the child's circumstances or for their needs to be assessed or reassessed. Any assessment should be completed within the 20 week timescale set out in the SEND Code of Practice.

Children being assessed for an EHCP will be dual registered and return, full time, to their mainstream school if the LA decides not to issue an EHCP. Alternatively, if an EHCP is issued but The Axis Academy do not feel they are able to meet need then The Axis Academy will support the child to be transitioned to a suitable setting.

For further information on our school, and the process for obtaining a place here contact:
